Weather of Concern

- Light rain will spread over northern California Tuesday and Wednesday. A wetter Pacific storm will bring rain and mountain snow to Northern California on Thursday. Snow levels should start out above the major trans-Sierra passes on Thursday and below the passes Thursday night.
- Accumulating snow will be possible near the Tejon Pass for motorists traveling through the I-5 corridor. Additionally, there will be strong winds through the I-5 corridor and other areas prone to north winds. A Winter Storm Warning in effect through late tonight for the Los Angeles and Ventura County mountains.

SITUATION SUMMARY

River Forecasts

The following Rivers are currently above Monitor Stage as of **0950** hours:

Coastal Region

- Eel River at Fernbridge, **11.1** feet, Monitor Stage 14.0 feet (Humboldt County)
- Navarro River at Navarro, **11.2** feet, Monitor Stage 23 feet (Mendocino County)

Inland Region:

- Cosumnes River at Michigan Bar, **8.8** feet, Monitor Stage 7.0 feet (Sacramento County)
- Sacramento River at Colusa Weir, **64.4** feet, Monitor Stage 61.8 feet (Colusa County)

Rivers currently forecast to go above Monitor Level

Inland Region

- Sacramento River at Tehama Bridge, **204.3** feet, Monitor Stage 210.0 feet (Tehama County)
- Sacramento River at Ord Ferry, **106** feet, Monitor State 110.0 feet (Glenn County)
- Sacramento River at Colusa Bridge, **62.9.0** feet, Monitor Stage 63.0 feet (Colusa County)
- Sacramento River at Tisdale Weir, **47.8** feet, Monitor State 45.5 feet (Colusa County)
- Cosumnes River at McConnell, **38.5** feet, Monitor Stage 40.0 feet (Sacramento County)

Cal EOC Incident – 2014 Drought

SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

A relatively weak cold front moves onshore this morning. As the cold front dissipates over the region a warm front brings a broad swath of precipitation Wednesday morning moving through Northern California Wednesday afternoon. This front is showing on the top end of the atmospheric river percentages and heavy precipitation is also supported by strong and broad upper divergence. This very strong warm conveyor flow will keep snow levels well above the passes during the bulk of the heavy precipitation. The front slowly moves through Northern California through Friday afternoon. The next system moves in Thursday night.

Eureka Weather:

A weak warm front will bring some light rain mainly this afternoon and tonight. Heavier rain is expected Wednesday night and Thursday with additional systems into the weekend.

Reno Weather:

Slick, icy roads along with areas of freezing fog are possible early this morning. A weak disturbance may bring light snow and rain Tuesday night and early Wednesday. Additional storm systems will bring gusty winds at times, with periods of rain and snow later this week through early next week.

Sacramento Weather:

A break in the wet weather for most of Northern California today and Wednesday, then wet weather returns late week and into the weekend

San Francisco Weather:

Light rain is likely from this evening into Wednesday especially for the North Bay. More significant rainfall is then expected during the second half of the week with precipitation starting in the North Bay Thursday and the rest of the area by Friday. More rain is expected over the upcoming weekend.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

Dry weather is forecast over central California Tuesday through Thursday before unsettled weather returns late in the week.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Fair skies and warmer conditions are expected through Thursday before another low pressure system brings a shot of rain and mountain snow later this week.

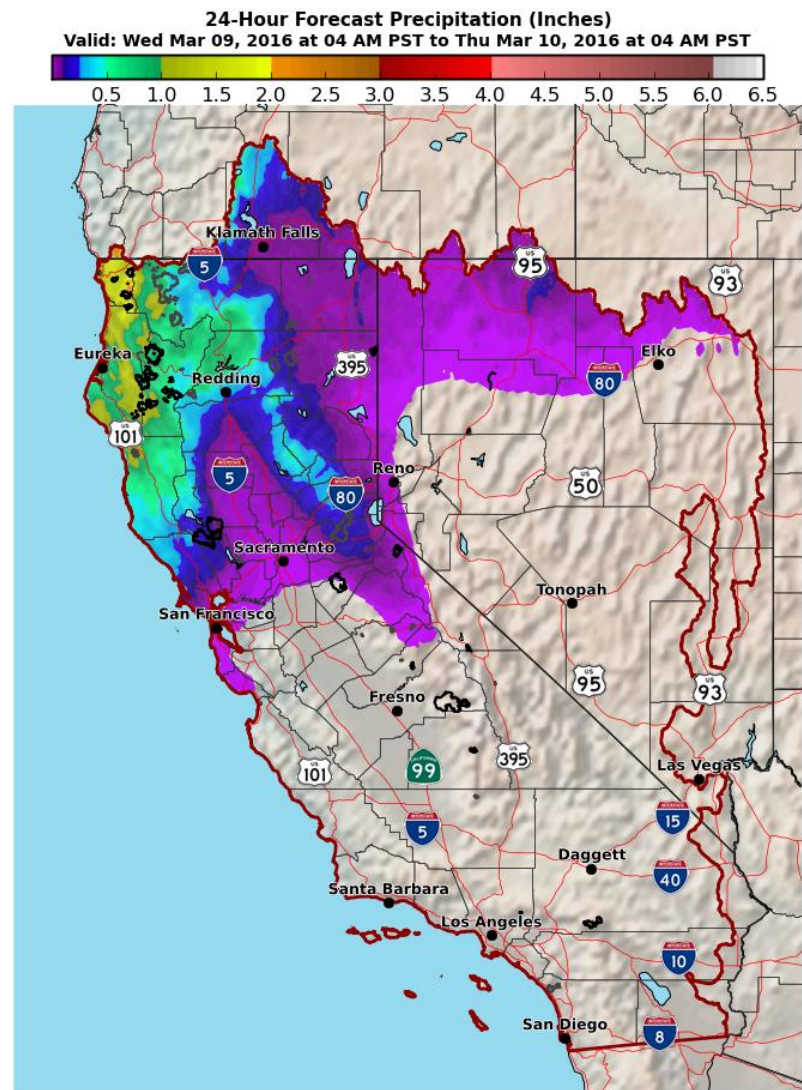

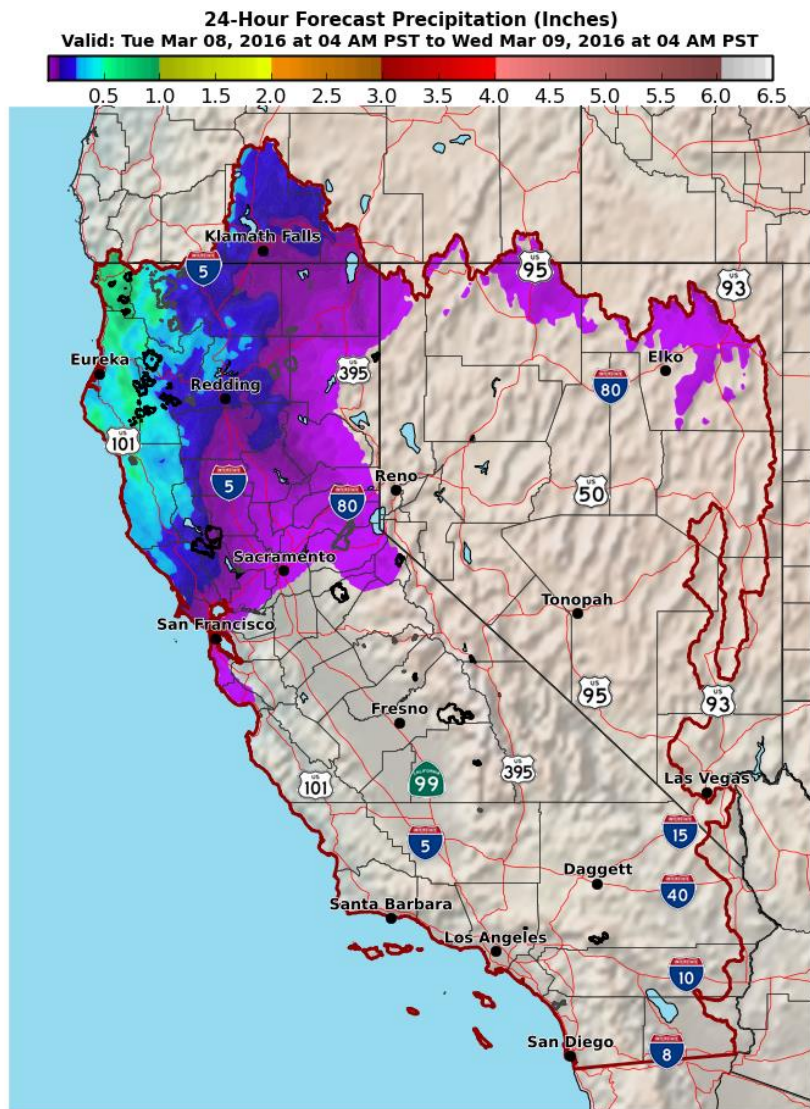

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Showers and isolated thunderstorms will be winding down overnight with fair dry and warmer weather Tuesday through Thursday under a high pressure ridge aloft. Gusty Northerly winds are expected Tuesday morning along coastal mountain slopes in San Bernardino and Riverside County mountains. Precipitation looks to return Friday night and early Saturday with another chance early next week at the coast high surf will continue through Tuesday.

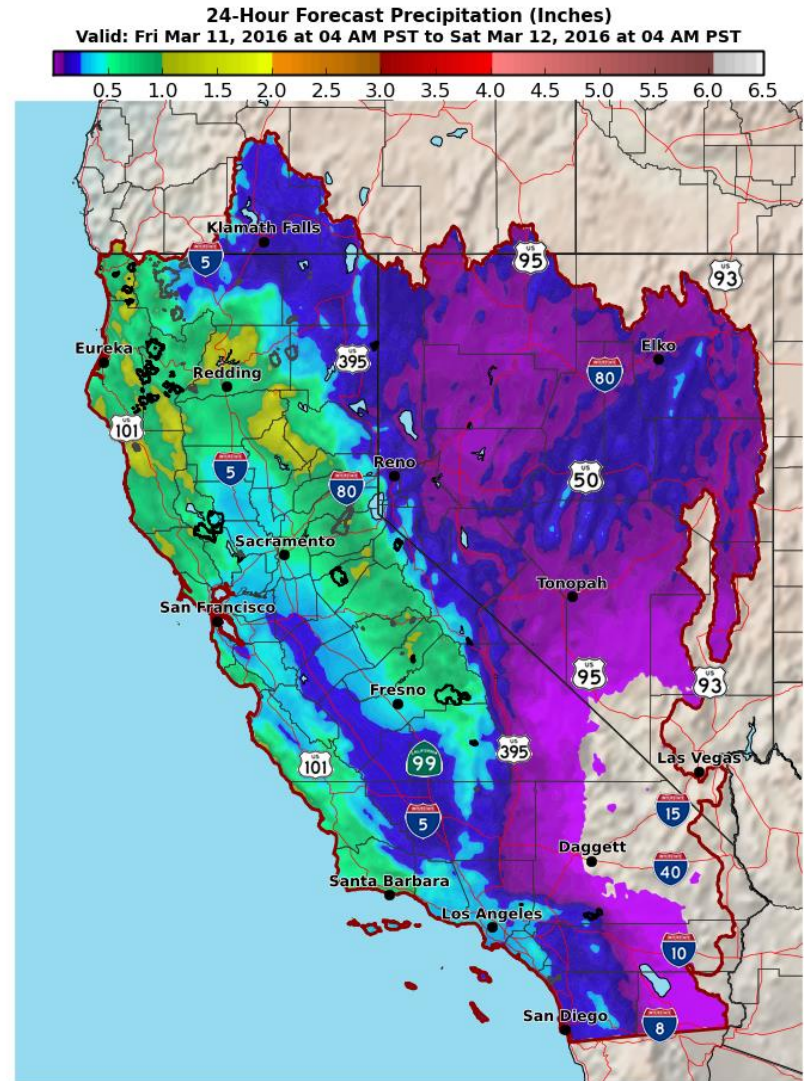

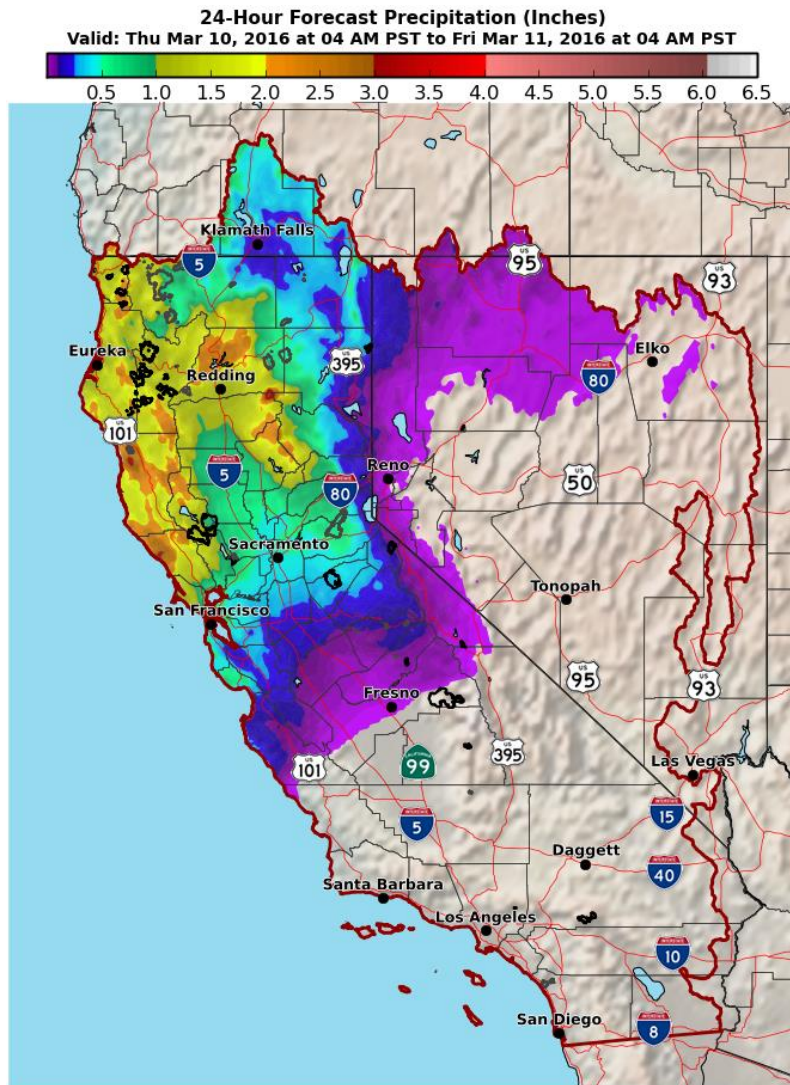

Southeast California Weather:

Breezy to windy conditions can be expected today over Southeast California and Southwest Arizona. Temperatures there will also be much warmer only slight warming elsewhere. Temperatures climb well above normal by Thursday. A passing weather system will bring some cooling and breeziness at the end of this week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 61 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 27 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.

California Specialized Training Institute

CSTI Scheduled Training

CSTI on the web

Initial Law Enforcement Response to Suicide Bombing Attacks (ILERSBA) Course Description

ILERSBA was developed with support and cooperation from the Department of Homeland Security, National Bomb Squad Commanders Advisory Board, and New Mexico Tech to provide front line law enforcement officers with the skills and knowledge to effectively interdict and respond to an imminent suicide bombing attack (person-borne or vehicle-borne) or a non-suicide attack involving a vehicle-borne device.

Scope of Course

Based on the Needs Assessment for this course there is a significant training gap for first line Law Enforcement to interdict and respond safely and effectively to person-borne suicide IED attacks or vehicle-borne IED attacks. This course is intended to meet those needs and deals specifically with immediate decisions and actions in face to face encounters of person-borne and vehicle-borne IED attacks.

Target Audience

Law enforcement officers assigned to patrol duties, their immediate supervisors, and administrators.

Date: March 23, 2016
